

REMARKS

Reconsideration of this application is requested in view of the amendments to the claims, the new drawings filed herewith and the remarks presented herein.

The claims in the application are claims 5 to 9, all other claims having been cancelled.

Applicants are submitting herewith new drawings to replace the drawings objected to by the official draftsman. It should be noted that in both figures, there occurred a marginal error. As shown, the only (7) on the axis (6) would not fit into the space (16) or would contact the transverse region (16) and this has been corrected in the new drawings. It is requested that the drawings be forwarded to the draftsman for review.

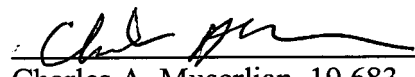

Claims 1 and 2 were rejected under 35 USC 102 as being anticipated by the Scott patent and claims 3 and 4 were rejected under 35 USC 103 as being obvious thereover. The cancellation of claims 1 to 4 obviates these grounds of rejection.

Claims 5 to 9, which were objected to as being dependent upon a rejected claim, have now been rewritten in independent form and are believed to be allowable as indicated by the Examiner. Applicants are submitting herewith PTO Form-2038 for

\$100.00 for the independent claim in excess of 3.

In view of the amendments to the claims and the above remarks, it is believed that the application is now in condition for allowance and favorable reconsideration of the application is requested.

Respectfully submitted,
Muserlian, Lucas and Mercanti
